

FlexAbility CM combines easily absorbed natural ingredients for support of healthy joint connective tissue and joint structure and to support and maintain normal joint function and mobility.

FlexAbility CM provides:

**Cetyl Myristoleate (CMO)**

concentrated unsaturated fatty acid found commonly in fish oil, whale oil and butter. CMO may help ease aches and discomfort caused by normal daily activity, exercise, training and competition.

**Glucosamine and Hyaluronic Acid**

are easily absorbed, natural substances that may stimulate the production of proteoglycans. Proteoglycans help to maintain the health and resiliency of joints and connective tissues.

**MSM**

is a bio-available source of sulfur for connective tissue support.

**Up to a 65 day supply**

per five pound container
